TELLS HIS RCYAL BROTHER ALL RAILWAYS DETERMINE NOT TO GOVERNMENT TO HAVE JURIS. FEW KNEW HE WANTED TO AC-ABOUT AMERICA.

ERLIN, March 19.-Prince Henry

landed at Kiel at dusk, and joined Princess Henry and their sons. ter concerning which those surround-

brothers had a talk today lasting several hours, and that Prince Henry told

brothers had a talk today lasting several hours, and that Prince Henry told Emperor William his experiences from the beginning to the end of his trip. The prince told the emperor that the members of the prince's party were much amused while on their travels at the calls of "Speech, speech," from the crowds collected at wayside places, and the cries of "How's your brother William?"

The prince said the only occasion when the least alarm for his safety was felt was when a member of the party saw a man enter the prince's car at one end, and while Prince Henry was or, the platform at the other end, bowing to the crowd. This man was ordered out of the car. He hesitated, and then withdrew. A few minutes later he was seen working his way through the crowd in order to get nearer the prince. This man wore a long coat, under which anything might have been concealed. A member of the prince's staff pointed out this person to John E. Wilkie, chief of the secret service, who accompanied the prince on his trip, who at once said:

"Why, that is one of my men."

Prince Henry Joes not know why he

accompanied the prince on his trip, who at once said:

"Why, that is one of my men."

Prince Henry Joes not know why he did not visit the stock yards at Chicago, except that he was advised by Mr. Wilkie that it would be better to omit this part of the programme, as the Polish workmen at the stock yards might create a disturbance. Mr. Wilkie explained the reason of this change in the programme to the owner of the packing house it was intended to visit, and although arrangements were made to see the packing houses privately, it was later found inconvenient to do so. Emperor William received a wireless telegraph message at 4 o'ciock yesterday afternoon from Cuxhaven, from which it seemed that the Deutschland was ninety miles away, while, as a matter of fact, she was only twenty miles distant. The emperor and his staff then sat down to dine, believing they had sufficient time before the arrival of the steamer. About half way through the menu news was brought that the Deutschland was sighted. Emperor William then stopped the dinner and hurried to the quay. Here he had a long wait until the steamer docked.

Emperor William Heehler, the United States naval attache at Berlin, who represented the American embassy at Cuxhaven yesterday, of the wonderful reception Prince Henry had received in the United States.

"But," said Commander Beehler, the United States.

"But," said Commander Beehler, "your majesty would have received a

Yes," replied the emperor, "that is

MET AND WED EX-HUSBAND. ..

Business had called Galbraith to Ta-coma, and their meeting on Pacific avenue was purely accidental. Neither knew the other was in Tacoma until they were face to face. Twenty min-utes after Mrs. Galbraith stepped from the train she was with Mr. Galbraith at the marriage license window of the county auditor's office.

Wife of Mayor Jones Anxious.

ing the Bill.

DICTION OF SUCH CASES.

WASHINGTON, March 19.—During the entire session of the senate go railroads and W. A. Day, representing the government, will hold a conference here tomorrow or Friday with a view to reaching an understanding regarding certain phases of the proposed litigation seeking to secure an observance of the provisions of the interstate commerce act.

By agreement next Tuesday has been set the day for hearing the petition at Kansas City before Judge John Phillips and it is expected that before that time an understanding will be reached whereby the railroads will not actively oppose the granting of the injunctions sought.

Mr. Day is on his way to Chicago from Kansas City and it is understood that he as consented to the constructive.

Mr. Day is on his way to Chicago from Kansas City and it is understood that he has consented to the control of the Northern Pacific. The witness understood that much of the sont was forceful and entertaing and throughout was forceful and entertaing the government, will hold a conference here tomorrow or Friday with a view to reaching an understanding will be proposed litigation seeking to secure an observance of the provisions of the interstate commerce act.

By agreement next Tuesday has been saintained that an assault upon the president was in the very nature of the control of the Northern Pacific.

John S. Kennedy, a banker, was the control of the Northern Pacific.

John S. Kennedy, a banker, was the provision of the provisions of the interstate commerce act.

John S. Kennedy, a banker, was the provision of the provision of the northern Securities company. The object of the suit is to overthrow the transfer of the two without captilloance of the suit is to overthrow the transfer of the two the suit is to overthrow the transfer of the suit is to overthrow the suit is to overthrow the suit is converting to the the suit is to overthrow the suit is to th today the bill providing for the ing Emperor William and Prince Henry ing regarding certain phases of the that the government had an absolute of the suit is to overthrow the transfer have been taken into the royal confi- proposed litigation seeking to secure an and inherent right to protect itself to the Northern Securities company of throughout was forceful and entertain- & (ing and instructive.

Mr. Hoar, in charge of the measure lucidated some arguments he had made previously, and Mr. Teller of Colorado and Mr. Bailey of Texas spoke briefly upon the bill. The Texas sena-tor said he could not support the meas-ure as it stands, because he could conceive of an assault made upon the president as a person and not as an official of the government. The assail-ant in that event ought to be punished recisely as if he, had assaulted any ther citizen.

Mr. Culberson offered a substitute for the pending measure. It makes the assassination or attempted assassina-tion of the president, vice president or shall counsel or advise the killing of the president, or who shall conspire to kill him or the sovereign of any foreign country, shall be punished by impris-onment not exceeding twenty years. Mr. Teller of Colorado said that while

he had no objection to legislation of the kind, he did not recognize there was any crying need for it. However, public sentiment seemed to demand it and he wanted as nearly a perfect bill as possible. No legislation would pro-tect absolutely the president, because if any man of determined spirit made up his mind to kill the president he

would accomplish his purpose.

Mr. Bailey of Texas maintained that
the government had ample authority
to protect its officials in the performance of their duties, but said he doubt-

states to secure settlers from among those who come west on colonist rates. The move on the part of Oregon, Washington and Idaho representatives is to counteract influence of the exhibit which is being established here by California. They expect to erect a property of the definition of the pest from one section to another until he had no resting place, but he warned the senators not to make anarchists of themselves in the effort to protect the president against anarchy. A properly drawn bill to meet the demand of the American

pate. Directly in line con contained in Mr. Balley's remarks, Mr. Bacon of Georgia introduced a bill for the deportation and exclusion of alien anarchists. It was the bill, he said, which, introduced by former Senator Hill of New York, had been passed by the senate, but had failed in the house. He offered it as a suggestion to the judiciary committee.

QUIRE ANY AT THE TIME.

NEW YORK, March 19.—There was a hearing in this city today be-fore William A. Lancaster of Min-

& Co.

The witness did not know before he went to Europe that E. H. Harriman sought to acquire a majority of Northern Pacific common. He learned from J. P. Morgan about May 5 or 6 that some interests in New York were making large purchases of Northern Pacific and later he was informed that these purchases were for Mr. Harriman. Later in the following August Mr. Kennedy said he acquired 10,000 shares of Northern Pacific from J. P. Morgan & Northern Pacific from J. P. Morgan &

"Do you know when Harriman sold his Northern Pacific stock to J. P. Morgan?" asked Mr. Lancaster. "In the autumn, I believe," replied Mr. Kennedy.

names were proposed for election on the board of directors of the Northern Pacific company the relations between Mr. Schiff and Mr. Harriman were very much strained?" asked the examiner.
Mr. Kennedy answered that he did

This closed the examination of Mr. Kennedy. George J. Perkins and Chas. S. Steele, members of the firm of J. P. Morgan & Co., were to have been heard today, but it was impossible for them to attend. It was arranged that the hearing should be resumed at 2 o'clock tomorrow afternoon. After Mr. Perkins and Mr. Steele have testified Jacob H. Schiff will be called.

Ratify the Treaty. Copenhagen, March 18.—The landthing, the upper house, in committee of the whole and in executive session, voted to-day to ratify the treaty providing for the

Cecil Rhodes' Illness.

Parham, was a stanch Union man. My sister thought a great deal of John. however, and after he was so badly wounded insisted on his being brought was in the neighborhood, and one day my brother-in-law invited the general and his staff to dinner. General Sherman had been in the house only a short time before he said. "'By the way, who is the sick man?'

"A live rebel,' said my sister. "After dinner, just as General Sherman was ready to leave the house, he stepped to the bedroom door, and, looking at the wounded Confederate, said:

"Young man, you nossibly."

stepped to the bedroom door, and, looking at the wounded Confederate, said:

"Young man, you possibly may be president of the United States some day,' and then turning his head and looking out of the door he added grimly, 'or be hanged.'

"Years afterward my brother was in Washington and called on General Sherman and told him who he was. General Sherman was delighted. He introduced my brother to his friends and made him teil the story over and over again."

with the full conviction that it is the safest and most lucrative industry in which he can engage."

I find, in glancing over a pile of letters, that the following questions are asked:

First—What is the price of land in the rubber and sugar section? Answer—About \$10 to \$15 per acre in gold, if near a railroad or navigable river. At some distance back the land is cheaper. Second—Will coffee and sugar grow the same land? Answer—Yes: some

ver again."
Continuing, Major Trezevant said: "General Sherman and General Brax-ton Bragg cordially hated each other during the war and for some time aft-erward. They were classmates at West Point, and their two armies clashed on bloody battlefields more than once. Anbloody battlefields more than once. Another classmate was Samuel Bell Maxey. United States senator from Texas following the war. After Appomattox Bragg was poor, and finally drifted to Texas, where he became chief engineer of the Gudf, Colorado & Santa Fe railroad, with poor pay and plenty of hard work. The office of the company was at Galveston, where General Bragg made his headquarters. Senator Maxey knew that Generals Sherman and Bragg lad cordially detested each other during the war. One day in Washington Senator Maxey and General Sherman got to talking over old times, when suddenly General Sherman said:

said:
"By the way, Sam, what is Braxton

doing?
"Senator Maxey told him about his former classmate. Sherman looked thoughtful for a minute, then he said:
"Sam, when you go home to Texas tomorrow you go and see Braxton, and tell him that if he'l ltake the place I will have him amounted inspector gen-

FACTS ABOUT MEXICO

Data About the Industries of Southern Republic.

To the Salt Lake Herald: Since my return from Mexico I have received so many letters of inquiry that I despair of answering them uness you give me space in your valu-ble journal, which, I believe, reaches nost of the people of this intermoun-ain region. Nearly every inquirer has mentioned having seen the interview published some time ago in these col-

Many are anxious to know about the climate, some want to hear about live-stock, others about every kind of product that a tropical climate will grow, and a few have asked what op-

der intelligent supervision, but who, if left to themselves, produce only the necessities of the hour. In a land where oranges, bananas, cocoanuts and a dozen fruits and nuts peculiar to the tropics of Mexico grow wild in every thicket; where yuccas, sweet potatoes, tomatoes beens and melec thrive withdirection the native is able to accom

For this reason—that native labor is plentiful, cheap and efficient in trop-ical agriculture—and the additional

ical agriculture—and the additional reason that all the elements of a conservatory—heat, moisture and rich soil—are found outdoors, makes it a region of magnificent possibilities.

To be sure, in some sections opportunities are presented to colonists to take small tracts and pay for them year by year, but it is as a field for investment that tropical Mexico is particularly inviting. I do not mean that one should be a capitalist to gain the advantages presented. Small investors advantages presented. Small investors may co-operate with each other, work together and pool their capital and accomplish all that one man with an

accomplish all that one man with an equal sum could do.

I believe that a man can take 100 acres, plant it in rubber with 200 trees to the acre, and have an independent income after eight years for his old age and for those who survive him. But it is better for fifty or a hundred men to join in such a project, whether they hold and plant in common or separately, keeping the tract under single supervision. And now I shall attempt
